## Bridgestone Corporation Announces Revised Consolidated 2006 Financial Projections

Tokyo (February 13, 2007) - Bridgestone Corporation today announced revisions to its consolidated financial projections for the fiscal year ended December 31, 2006. Its original projections were announced on November 1, 2006. Set forth below is a summary of management's revised projections of consolidated sales and earnings for fiscal year 2006.

### Consolidated Financial Projections (January 1 to December 31, 2006)

	(Revised) FY2006 Projections	(Original) FY2006 Projections	Increase (decrease)		(Reference)
					FY2005 Results
	¥ million	¥ million	¥ million	%	¥ million
Net sales	2,990,000	2,950,000	40,000	1.3	2,691,375
Operating income	190,000	165,000	25,000	15.1	213,850
Ordinary income	159,000	128,000	31,000	24.2	198,103
Net income	85,000	62,000	23,000	37.0	180,796

Management expects net sales in fiscal year 2006 to increase over the projections announced on November 1, 2006 due in part to an increase in unit sales and the exchange gain on the weaker Japanese Yen. Management also expects an increase in operating income, ordinary income and net income over the projections announced on November 1, 2006 due in part to an increase in unit sales, higher profitability due to better sales mix and the exchange gain on the weaker Japanese Yen.
